Hi Todd,

I'm sorry for the delay in responding...

It took a bit of investigating to get to the Verizon West Policy on terminating Interconnection trunks on Enterprise Facilities. Unfortunately the West policy is the same as the east, as you can see in the message below.

We will not terminate interconnection trunks on a retail/enterprise facility.

I hope this information will assist you in making a decision on interconnecting in Illinois.

Take care,
Dianne

Dianne,

We received word from Product Management that the Verizon West policy is the same as the east. The CLEC may not terminate interconnection facilities on a retail facility.

Regards,
Charles Bartholomew
